Arylglyoxals in synthesis of heterocyclic compounds  
 B Eftekhari-Sis, M Zirak, A Akbari - Chemical reviews, 2013 - ACS Publications  
 Heterocycles are an extraordinarily important class of compounds, making up more than half of all known organic compounds. Heterocycles are present in a wide variety of drugs, most vitamins, many natural products, biomolecules, and biologically active compounds ...

Surface plasmon waveguide Schottky detector  
 A Akbari, RN Tait, P Berini - Optics express, 2010 - osapublishing.org  
 A surface plasmon polariton detector is demonstrated at infra-red wavelengths. The device consists of a metal stripe on silicon forming a Schottky contact thereon and supporting surface a plasmon polariton mode that is strongly confined and localised to the metal ...

Electrochemical behavior of a carbon paste electrode modified with 5-amino-3', 4'-dimethyl-biphenyl-2-ol/carbon nanotube and its application for simultaneous ...  
 H Beitollahi, A Mohadesi, S Mohammadi, A Akbari - Electrochimica Acta, 2012 - Elsevier  
 In this study, a carbon paste electrode modified with carbon nanotubes and 5-amino-3', 4'-dimethyl-biphenyl-2-ol (5ADB) was used to prepare a novel electrochemical sensor. The objective of this novel electrode modification was to seek new electrochemical ...
